 Commissioner of Reclamation . . . ROBERT W. NELSON.
 Administrator, Bonneville Power Administration . . . FLOYD E. DOMINY.
 Administrator, Southeastern Power Administration . . . CHARLES F. LUCE.
 Administrator, Southwestern Power Administration . . . CHARLES W. LEAVY.
 Director, Office of Saline Water . . . DOUGLAS G. WRIGHT.
 Administrator, Defense Electric Power Administration . . . FRANK C. DiLUZIO.
 . . . LESLIE N. JOCHIMSEN.

[For regulations codified under Department of the Interior, see Code of Federal Regulations, Title 41, Chapter 14]

CREATION AND AUTHORITY.—The Department of the Interior was created by act of March 3, 1849 (9 Stat. 395; 5 U. S. C. 481), which transferred to it the General Land Office, the Office of Indian Affairs, the Pension Office, and the Patent Office. The Department also had responsibility for supervision of the Commissioner of Public Buildings, the Board of Inspectors and the Warden of the Penitentiary of the District of Columbia, the census of the United States, and the accounts of marshals and other officers of the United States courts, and of lead and other mines in the United States.

Over the years there were added to the original functions (and later removed) activities in such areas as education, hospitals and eleemosynary institutions, labor, railroad accounts, and interstate commerce. With the creation of subsequent executive departments and certain independent agencies, the role of the Department of the Interior changed during the more than one hundred years of its existence from that of general housekeeper for the Federal Government to that of custodian of the Nation's natural resources. Under the Defense Production Act of 1950, as amended, and related legislation, the Secretary was delegated responsibilities relating to petroleum and natural gas, solid fuels, electric power, fishery commodities or products, and metals and minerals.

The jurisdiction of the Department extends over the continental United States, to islands in the Caribbean and

the South Pacific, and to lands within the Arctic Circle. It includes the custody of 550 million acres of land, the conservation and development of mineral and water resources, the promotion of mine safety and efficiency, the conservation, development, and utilization of fish and wildlife resources, the coordination of Federal and State recreation programs, the administration of the Nation's great scenic and historic areas, the operation of Job Corps Conservation Centers, the reclamation of arid lands in the West through irrigation, and the management of hydroelectric power systems. The Department of the Interior is also responsible for the welfare of about 180,000 persons in the territories of the United States and in the Trust Territory of the Pacific Islands, and provides services to 380,000 Indians nearly all of whom reside on, or adjacent to, reservations.

OBJECTIVES.—In formulating and administering programs for the management, conservation, and development of natural resources, the Department pursues the following objectives: the encouragement of efficient use; the assurance of adequate resource development in order to meet the requirements of national security and an expanding national economy; the maintenance of production capacity for future generations; the promotion of an equitable distribution of benefits from nationally owned resources; the discouragement of wasteful exploitation; the maximum use of recreational areas; and the orderly incorpora-

tion of Indian groups and individuals into our national life by creating conditions which will advance their social and economic adjustment.

ORGANIZATION.—The Department of the Interior is composed of the

Office of the Secretary and other departmental offices and bureaus. The structure of the Department is shown in the organization chart.

Office of the Secretary

[For regulations codified under this heading, see Code of Federal Regulations, Title 43, Subtitle A]

The Office of the Secretary performs both line and staff functions in the overall management of the Department. The Secretarial officers and the Solicitor exercise line authority in their respective fields of responsibility. This means that in these fields they have the authority to make final decisions affecting bureaus and offices and to issue directions to them. The Secretarial divisions advise and provide staff assistance to these officials.

Secretary

The Secretary of the Interior, as the head of an executive department, reports directly to the President and is responsible for the direction and supervision of all activities of the Department. He is also responsible for general direction of the Virgin Islands Corporation and has certain powers or supervisory responsibilities relating to territorial governments.

Assistants to the Secretary

Assistants to the Secretary serve as personal aides and confidential advisers to the Secretary; they may act on behalf of the Secretary on specific matters referred to them for disposition, and may represent the Secretary in various Executive Office and inter-agency groups. The Assistant to the Secretary and Legislative Counsel supervises the preparation of proposed legislation and legislative reports. The Assistant to the Secretary for Con-

gressional Liaison serves as coordinator of departmental relations with the Congress. The Assistant to the Secretary for Land Utilization is the Secretary's adviser for that activity.

Under Secretary

The Under Secretary assists the Secretary in the discharge of his duties and in the absence of the latter performs his functions. With the exception of certain matters requiring personal action by the Secretary, the Under Secretary has the full authority of the Secretary on any matter which comes before him.

Assistant Secretary for Fish and Wildlife

The Assistant Secretary for Fish and Wildlife discharges the duties of the Secretary with respect to the development, conservation, and utilization of the fish and wildlife resources of the Nation. The Assistant Secretary exercises Secretarial direction and supervision over the Commissioner of Fish and Wildlife and the Bureaus of Commercial Fisheries and Sport Fisheries and Wildlife, which comprise the United States Fish and Wildlife Service.

Assistant Secretary—Mineral Resources

The Assistant Secretary—Mineral Resources discharges the duties of the Secretary with respect to the development and utilization of minerals and

fuels, including defense minerals activities. The Assistant Secretary exercises Secretarial direction and supervision over the Office of Geography, Office of Minerals and Solid Fuels, Office of Oil and Gas, Office of Minerals Exploration, Office of Coal Research, Oil Import Administration, Bureau of Mines, and Geological Survey.

Assistant Secretary—Public Land Management

The Assistant Secretary—Public Land Management discharges the duties of the Secretary with respect to outdoor recreation, land utilization and management, territorial affairs, and Indian affairs. The Assistant Secretary exercises Secretarial direction and supervision over the Bureau of Indian Affairs, Bureau of Land Management, National Park Service, Bureau of Outdoor Recreation, Office of Territories, and The Alaska Railroad.

Assistant Secretary—Water and Power Development

The Assistant Secretary—Water and Power Development discharges the duties of the Secretary with respect to the development of water resources and power. The Assistant Secretary exercises Secretarial direction and supervision over the Bureau of Reclamation, Bonneville Power Administration, Southwestern Power Administration, and the Office of Saline Water. He is also responsible for carrying out the national defense functions of the Secretary with respect to electric power.

Assistant Secretary for Administration

The Assistant Secretary for Administration discharges the duties of the Secretary with respect to all phases of administrative management including budget, finance, compliance, management research, personnel, procure-

ment, property, audit, management operations, security, emergency preparedness, automatic data processing, and related activities. Secretarial offices and divisions appropriately identified with these functions are under his supervision. The Assistant Secretary for Administration provides central coordination of the Department's emergency preparedness activities and exercises Secretarial direction and supervision over the administrative management aspects of the program.

The Office of Management Operations has primary staff responsibility for all administrative services, property management, records management (except directives and reports), radio communications, and emergency preparedness activities of the Department. It also provides centralized administrative services for bureau and office headquarters and other offices located in the Washington, D.C., metropolitan area. The Office is composed of the following units: the Division of Property and Records, Division of Personnel, Division of Emergency Preparedness, Branch of Central Services, Branch of Fiscal Services, Branch of Special Services, and Library Services.

The Office of Survey and Review, is responsible for the provision of top level reviews and analyses covering Department policies and operations in the area of financial management and in other management areas in which investment of manpower and fund resources, compliance activities, and sensitive program operations are significantly involved. The Office is composed of the following divisions: Audit and Analysis, Methods, Compliance, and Investigations.

The Division of Budget has primary staff responsibility for all budget, fiscal, and fiscal reporting functions of the Department. The Division is composed of a Branch of Budget and a Branch of Fiscal Management and Reports.

The Division of Management Research has primary staff responsibility for matters relating to management

practices, organization, and other aspects of management analysis; departmental instruction systems; departmental incentive awards programs; manpower utilization programs and reports; committee management; reports management; and departmental participation in governmentwide management improvement programs. The Division is composed of a staff of management analysts and Branches of Directives Management and Incentive Awards.

The Division of Personnel Management has primary staff responsibility for the development of policies and programs to establish and maintain an adequate, qualified, and efficient working force in the Department. The Division is composed of the following branches: Compensation and Labor Relations, Employment and Training, Programs and Standards, and Safety Management.

Solicitor

The Solicitor is the principal legal adviser to the Secretary and the chief law officer of the Department. He is responsible for and has supervision over all legal work of the Department. (See Office of the Solicitor, below.)

Office of the Science Adviser

The Science Adviser to the Secretary serves as staff adviser to the Secretary and assists in carrying out the Secretary's responsibilities for the policy direction, coordination, control, and administration of the scientific research activities and programs within the bureaus and offices of the Department.

Office of Information

The Office of Information exercises technical and general functional supervision over all information activities of the Department. The Office of Information, Northwest Regional Office, located in Portland, Oreg., assists and directs the information pro-

grams of bureaus which conduct operations in that area.

Resources Program Staff

The Resources Program Staff consists of specialists in a variety of program fields. It is a Secretarial division that provides assistance to the Secretary, Under Secretary, and Assistant Secretaries in developing long-range natural resource policies and program objectives, and in coordinating policies and program objectives with other Federal agencies, such as the Job Corps, the Area Redevelopment Administration, etc. The Resources Program Staff facilitates the coordination of Department programs at the regional level through seven departmental field committees.

Office of Water Resources Research

[For regulations codified under this heading, see Code of Federal Regulations, Title 18, Chapter IV]

The Office of Water Resources Research administers the program of water resources research and training authorized by act of July 17, 1964 (78 Stat. 329; 42 U.S.C. 1961). The program provides for promotion and support of research programs and training in the study of water supply and of resources which affect water.
